

Grounds & Exteriors Part IV

Written by Administrator
Friday, 30 July 2010 19:13 -

Lisa takes us on a drive through the property's 40+ acres of woods and talks about sustainable forestry, hunting and shows us the cleared patch in the woods which will eventually house sustainable cabins for educational and corporate retreats.

Lisa also finishes the exterior tour of the last side of Project FarmHouse™ as she describes its eventual transition into a true German "FourSquare" Farm House.
